

Families of Graphs - Graphing Functions

Name: _____ **Date:** _____ **Per:** _____

Constant Linear Functions are functions where $y =$ to a constant value. For example: $y = 3$, $y = -1$, etc. These equations can also be written as $y - 3 = 0$ or $y + 1 = 0$. The graph of these functions are Horizontal lines.

Graph: $y - 5 = 0$ in red
 $y + 3 = 0$ in blue.

Identity Function.

$$y = x$$

Quadratic Function

$$y = x^2$$

Cubic Function

$$y = x^3$$

Square Root Function.

$$y = \sqrt{x}$$

Absolute Value Function

$$y = |x|$$

Rational Function

$$y = \frac{1}{x}$$
